Subject: Submission Packet, FCC Form 620, for proposed New Tower Project

VT6405 / Ascutney Base Wood Pole

485 Hotel Road, Brownsville, Windsor County, VT 05037

EBI Project Number: 6115002790

Dear Mr. Duggan:

In accordance with the Federal Communication Commission (FCC) National Environmental Policy Act (NEPA) rules and Section 106 of the National Historic Preservation Act (NHPA), the above-referenced telecommunications project is being evaluated by EBI for its potential effects to districts, sites, buildings, structures, or objects significant in American history, architecture, archaeology, engineering, or culture that are listed, or potentially eligible for listing in the National Register of Historic Places (NRHP). Based on EBI's review of the characteristics and location of the existing project, the project does not meet the exclusions stated in the "Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission," dated September 2004 ("Nationwide Agreement"); therefore, the project is required to undergo Section 106 review with the State Historic Preservation Office.

AT&T Mobility, LLC proposes to make permanent an existing temporary telecommunications facility consisting of a 51-foot wooden pole flush-mounted with antennas. Existing equipment will remain in the adjacent building. In accordance with the Nationwide Agreement, please find the attached Submission Packet, FCC Form 620, which presents the details on the proposed project as well as efforts that have been taken to identify, assess, and make determinations of effect on the impacts of the proposed project on Historic Properties.

I would appreciate your review of the data for the existing project presented above and shown on the attached form and attachments. On behalf of AT&T Mobility, LLC, I would appreciate your comments regarding this existing telecommunications installation in a letter directed to the address noted above. Please do not hesitate to contact me if you have any questions or concerns about the existing project or the information contained in this Submission Packet.

Sincerely,

Britta Fenniman Tonn Senior Architectural Historian NO HISTORIC PROPERTIES AFFECTED
